OTN Systems nominated for the Export Lion Award!

We have been nominated for the Export Lion Award! With this award, government agency Flanders Investment & Trade (FIT) honors Flanders-based companies with exceptional track records in terms of export and international business.

In two jury rounds, the participating companies are assessed about their export growth and turnover figures, geographical diversification efforts, export policy lines, corporate social responsibility initiatives, innovative strength and about specific elements that contributed to their export success.

During an online awards ceremony on September 29, FIT will present the prestigious award for the 20th time to two companies with outstanding export achievements in two different categories: 'companies with up to 49 employees' and 'companies with 50 or more employees'. In the second category, FIT announced the nomination of 3 companies including OTN Systems.

Our excellent 2020 export figures (91% of total turnover - 77% non-EU customers) must have done the trick. The enthusiastic OTN Systems team is very proud and excited about the nomination. Curious about who is going to win, we are counting the days!

About OTN Systems
OTN Systems is a leading supplier of mission-critical telecommunication solutions to industrial customers for more than 30 years. The company has developed a unique next generation platform tailored for industrial applications. XTran is a flexible, state-of-the-art product allowing customers to go full packet. Its underlying MPLS-TP technology avoids the complexity of generic telecom solutions developed for service providers. XTran secures reliable operations in harsh environments, while its management system (TXCare) supports an intuitive and simple handling. Since its market introduction back in 2014, more than 100 customers worldwide have deployed XTran. For more information on our product and services offering, please visit us at www.otnsystems.com, allowing you to fully appreciate how "we make MPLS for Operational Telecom easy."
